

RISHAB KUMAR

Harnaut, Nalanda, Bihar 803110

📞 6205206027 ✉ kumarrishab205@gmail.com  [linkedin.com/in/rishab-kumar-a242b0249](https://www.linkedin.com/in/rishab-kumar-a242b0249)  github.com/RishabKrPandey

Education

Indian Institute Of Technology Madras

Bachelor of Science in Data Science and Its Applications

Ongoing

Chennai, Tamil Nadu

Patliputra University

Bachelor of Arts (Sociology)

Completed in 2023

Patna, Bihar

Projects

Predicting Irrigation Need | *Python, Scikit-Learn, SHAP, Pandas, Numpy Google Colab*

- Designed an ML-driven precision agriculture solution to predict irrigation needs and support efficient water usage.
- Achieved robust classification performance using **LightGBM with cross-validation and imbalance handling techniques**.
- Applied explainable AI (SHAP) to derive actionable agricultural insights from model predictions.
- Improved project reproducibility through structured notebooks, modular preprocessing, and documented workflows.
- Github Repository : <https://github.com/RishabKrPandey/Predicting-Irrigation-Needs>

Kaggle Competition (Engage2Value: From Clicks to Conversions) | *Python, NumPy, Scikit-learn, Matplotlib, Seaborn*

- Implemented LightGBM with Tweedie for predicting Purchase Value.
- Achieved accuracy of 0.677 , ranking of 179 on the leaderboard.
- Github Repository: <https://github.com/RishabKrPandey/Kaggle-Notebook-Engage2Value>

Chocolate-Sales-Analysis | *Python, Google colab, Exploratory Data Analysis(EDA)*

- Conducted EDA on chocolate sales data using python to analyze product and regional performance.
- Identified sales trends and business patterns through data visualization and comparative analysis.
- Presented findings and recommendations using a structured business insights presentation.
- Github Repository: <https://github.com/RishabKrPandey/Chocolate-Sales-Analysis>

Library Management System | *Python, Flask, SQLite, HTML, CSS*

- Developed a web application using Flask, HTML and CSS
- Implemented authentication and authorization for multi-user app
- Implemented user approval system by admin
- Github Repository: <https://github.com/RishabKrPandey/Library-Managment-System->

Household Service Application — | *Python, Flask, VueJS, SQLite, ChartJS, Redis, Celery*

- Developed a multi-user full-stack web application using Flask for API, VueJS as the frontend and SQLite for data storage.
- Implemented Role-based Access Control using Flask-Security.
- Visualized user stats using ChartJS.
- Used Celery and Redis for asynchronous tasks.
- Github Repository: <https://github.com/RishabKrPandey/Household-Services-App>

Technical Skills

Languages: Python, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Eclipse, Jupyter

Technologies/Frameworks: VueJS, Flask, Flask-RESTful, Redis, Celery, Github

Libraries:: Pandas, NumPy, Scikit-Learn, MatPlotLib

Leadership / Extracurricular

Leadership: Secretary - Quiz Society (2023-24)

Interests:: Volleyball, Javelin
